Lights on the Lake Attendance Tops 40,000 Vehicles

2nd Highest Total Attendance in 27 Year History

Onondaga County announced the attendance for the 2016-17 edition of Lights on the Lake today. 40,576 vehicles drove through the annual holiday extravaganza, the 2nd highest attendance total in its 27 year history. The highest number, 41,587, drove through the show in 2011-12. Last year's attendance of 40,097 is the third highest total.

"So many people make a drive through Lights on the Lake an annual holiday tradition," said County Executive Joanie Mahoney. "Since partnering with Galaxy Communications the show has improved year after year and we have seen record setting attendance. We thank Galaxy and our Parks Department for all they do to bring us a great event that makes the holidays special."
