Allen Road Paving Improvements Set to Begin

The Onondaga County Department of Transportation will begin work on Tuesday, May 29, 2018 to rehabilitate Allen Road in the Town of Clay.

The work involves improvements to Allen Road (CR 205) between West Taft Road and Bear Road (1.1 Miles). The pavement resurfacing work includes milling, overlaying with hot mix asphalt pavement, and limited full-depth reconstruction where necessary. Sidewalk, curb, and drainage improvements are also included in the work. Overhead and underground utilities will also be relocated in order to accommodate the road improvements, including electric, gas, water, and communications facilities.

The highway will be open to traffic for the duration of the project, however single lane closures will be required in order to complete the work. Occasional delays may be experienced during this construction project.

It is anticipated that all work associated with this project will be completed by end of construction season this year.

As with any highway construction, we respectfully ask the traveling public to please reduce your speed within the work zone, use caution and be mindful of roadside workers and construction vehicles.
