How does the plan work?

1. When you receive a new prescription from your doctor take it to your local pharmacy to be filled.
2. When you drop off the prescription make sure to also give the pharmacy employee your new card.
3. The pharmacist will fill the prescription, give you the medication, and charge you \$7.00 for a generic drug, the greater of \$20.00 or 25% up to a maximum of \$100.00 for a preferred brand drug and the greater of \$35.00 or 35% for a non-preferred brand drug up to a maximum of \$125.00.

What if I want a refill?

If you call in a refill, make sure to speak to a pharmacy employee and let them know that there has been a change in your insurance. When you go to pick up your prescription you will need to show your new card to the pharmacy employee so he/she can process it correctly.
