## About the Lab

The Forensic Laboratories deliver accredited scientific services supporting justice and public safety in Onondaga and the surrounding counties. Comprising six disciplines—Digital Evidence, Firearms, Forensic Chemistry, Fire Debris, Forensic Biology/DNA, and Latent Prints— The laboratories analyze evidence to aid law enforcement and the District Attorney's office.

## New Senior Latent Print Examiner

We are pleased to announce the addition of Molly Corvo to the Center for Forensic Sciences Laboratories as our new Senior Latent Print Examiner. Molly joins us from the Anderson County Sheriff's Office in South Carolina, bringing with her more than a decade of specialized experience in latent print analysis. Her extensive background and expertise will be a valuable asset to our forensic team and the agencies we serve.

Molly will be formally introduced at upcoming Chiefs Meetings and is available for contact at [MollyCorvo@ongov.net](mailto:MollyCorvo@ongov.net).

Please join us in extending a warm welcome to Molly as she begins this new chapter with the Center for Forensic Sciences. We look forward to the contributions she will make in advancing our mission and supporting our continued commitment to excellence in forensic science.

## GreyKey Preserve Update

Due to recent Apple updates, GreyKey Preserve is now only compatible with select device models and iOS versions. For questions regarding device compatibility, please contact the Digital Evidence section.

## Beast.Net Transition

Beast Property will transition to a web-based platform, Beast.Net, in mid-July. Virtual training will be provided to support this rollout. Additional instructions and details will be shared with agency points of contact as the transition date approaches.
