Aquarium statement:

My name Dan Vadala and I am the local president of CSEA Local 834 which represents county employees.

I once again am coming before you all to ask that you oppose the County Executive's plan to spend taxpayer dollars on this aquarium project.

The funding of this project with cash is a questionable one. Never before has the county had the ability to do such a thing. But I ask you all to think about the circumstances that have led our county to have the cash for this project.

First, let's talk about the multimillion-dollar budget surplus. A surplus that has been bolstered off the backs of our essential workers. Just last year you were all asked to approve over 300 layoffs to save \$15 million. At the time this was done to ward off the loss of any sales tax revenue due to the pandemic. Many open positions were defunded and we did not see them funded again in this past budget.

Then we have the American Rescue Plan, which gave the county \$89 million from the federal government. While there is flexibility with the use of these funds, the US Department of Treasury defines priorities for the usage of these dollars. These are:

- supporting urgent COVID response and bolstering public health departments
- replacing lost revenue for local governments
- stabilizing households and businesses
- provide premium pay for essential workers
- investing in water, sewer, and broadband infrastructure

Why cant we invest more in the public sector workforce, or why cant we invest more in fighting poverty, or why cant we do more to help fight the pandemic? The county executive and his team will say "it's not either or," but myself and my members respectfully ask why can't you do more to invest in the services county government provides first? What exactly is the plan.

Last time we were here, the representatives from the hotels and hospitality industry said the sales tax and hotel tax gains that could be seen from this project would help the county invest in services. In fact, they said the "money they will **give** the county." First, I found it funny that they acted like it's a choice whether they pay those taxes. Secondly, I'd like to point out that the revenue gains from sales tax and hotel tax are estimated at \$796,000. Lets forget the fact that this is only 0.05% of our annual budget. How long will it take for the county to realize their \$85 million investment? Just some quick mental math puts it at about 106 years.

The county currently has almost 1000 unfilled positions that are budgeted. This is a massive problem because more are leaving the workforce every week due to being overworked and worn down by this pandemic. It's a problem that will only continue to get worse if the county doesn't come up with bold solutions. The money saved off their backs

and the federal money designated to help support public services should be used to fix this problem.

The county would say they are hiring, and they would be right. But our numbers show their hiring is barely keeping up with attrition. This is a problem with solutions. But unfortunately the county prefers to save millions of dollars a year off of unfilled positions, just so they can use that money for projects like this aquarium.

The zoo is currently run by county employees, why can't the aquarium be run by county employees the same way? So many good things have been said about the zoo in this conversation, but people forget it's the frontline union members taking care of the animals and keeping it running every day. Instead of paying a company that is not in our community, why not guarantee these are union jobs with good benefits and have the county actually operate it.

Like many, I feel my member's questions are legitimate. I know many of the legislators have the same questions. It's unfortunate that the county executive and his team call anyone who asks these questions "against progress," or plainly "negative." In my opinion that's no way of reaching consensus.

Lastly.... if this does pass.... and one of you was the deciding vote, I hope you were able to get assurances from the County. Like how much the property costs, who will run this, or what other businesses are interested in moving in to the inner harbor. For too long kind words have swayed many, its time to say enough is enough.

My name is Jacqui Foss and I'm speaking today on behalf of the Animal Alliance of Greater Syracuse (more commonly referred to as AAGS or just The Animal Alliance).

First I'd like to thank you for this opportunity to speak today regarding the use of ~~\$8~~<sup>\$5</sup>M on a new Aquarium.

There are so many areas within our community where we and many residents of our county feel this money would make a huge impact on the quality of life of those living here. AAGS has shared information about the aquarium on social media. We've seen comments from people who would like to see these funds help smaller interest groups like our veterans, our senior citizens, our homeless population, the school system and last but certainly not least, the underserved area of our animal community.

I personally can't speak to the specific needs of the various small interest groups that I just mentioned, but I **can** speak with you about our underserved animal community who could greatly benefit from just a **PORTION** of that money.

\*\*\*\*\*

I have some statistics for you but first I want to say thank you to our friends at FixingtoHelp, for putting in the work, so that we would have these stats for you.

- Stats like the fact that **RIGHT NOW**, there's over **30K** cats and dogs living in Onondaga County households that live **AT or below** the Federal poverty level!

- Now that number doesn't even include the thousands more that are living in households that are 1.5 or 2 times above the poverty level but **still** qualify as **LOW INCOME**.

- Oh and of course let's not forget the tens of thousands of the county's homeless cats that are struggling to just survive. And just think, they are out there reproducing 2-3 times per year!

\*\*\*\*\*

You'll sometimes hear someone say "if you can't afford a pet you shouldn't have one". Well, for right now, let's set that aside because we are speaking of homes that **ALREADY** have pets and these pets (and the homeless cats and dogs) NEED to have affordable care available to them.

When it comes to animal care and management, our county has been in the dark ages for **way too long**. County Executive Ryan McMahon and Mayor Ben Walsh always allude to bringing our area into the 21st century. To bringing in Up and Coming technology companies and creating state of the art facilities. Well, why don't **WE become the county to look** at as an example as to how to properly care for our pets and how to manage our stray animal communities?! **Why doesn't Onondaga County** build a shiny new state of the art facility and utilize some of that Up and Coming technology to be the **BEST animal care center around**?!

Working together and building a facility we could provide

- Affordable basic care for our local pets and strays.
  
- It could be one that can provide high-volume, low-cost spay and neuter services so that we can fight **and win** the battle of overpopulation of unwanted pets. This facility would serve individuals, other area shelters and area rescues, as well as caretakers of cat communities.
  
- It could be a center that can **embrace and train** caretakers on TNR (trap, neuter and return) as well as **lend** traps to caretakers for TNR purposes.

- It could be a facility that can provide shelter for homeless cats and dogs for the entire county until they are able to be adopted into their forever homes.

- This facility ~~that~~ could provide services for behavioral training of dogs in the shelter system that require it for adoption.

- and last but certainly not least this facility could serve as an **education center** where residents could learn how to properly care for their pets. Where they could also receive education on how to support community caretakers in their mission to care for and at the same time help reduce the number of stray cats in the county.

**How impressive would this be** to our residents and to cities throughout NY and the country! Albany, Rochester and Buffalo would definitely be envious of a facility like this!

\*\*\*\*\*

What it comes down to though, is while it may not be a tourist attraction, we believe it's safe to say that a facility like this would be SERVING OUR RESIDENTS of **ALL income levels**, helping to keep our animals healthy and it would be helping to reduce the number of unwanted pets on our streets, in our neighborhoods, commercial areas and everywhere throughout Onondaga County. Would this cost money? Yes, of course. **BUT** it would not be anywhere near ~~\$50M!~~ **85M**

To wrap this up, on behalf of the Animal Alliance of Greater Syracuse, we ask that you vote **NO** to the Aquarium. Instead, look to the residents, both 2 legged and 4 legged (and some tripods thrown in there) and use this money to improve the quality of the lives living here now. The need is great and we need you to do the right thing for us all.

//// Thank you for your time and attention.

Onondaga County Executive Ryan McMahon's desire for a county aquarium is a public project of questionable merit that typically involves political patronage and graft. It is also a project of inherent social meanness for using \$85 million for an alleged significant tourist attraction when we have other severe and pressing economic interests of the poor in our county.

The only proposed positive effect stated by the County Executive is to attract half a million tourists a year, and he estimates it could result in \$796,000 in annual sales and hotel tax revenue. He has no evidence for this. Aquariums were tourist attractions in the early 1900s but not since. The principal purpose of large aquariums now is conservation for endangered species, something a small and new aquarium can't do. Also, the costs of acquiring marine life, initial staffing, and yearly maintenance costs are very high for aquariums.

A recent comprehensive article (The Atlantic, Bursting the Aquarium Bubble, 4/25/2019) stated, "Creating an artificial underwater environment is still a technological and scientific challenge, with limited initial conservation value. Current aquariums took years to develop the resources required to perform effective conservation; new aquariums will not have the ability to develop these initiatives for years, if ever. If they fail, the extraction of marine riches, required for setup, goes to waste. While many of aquariums' earliest problems have been solved—we no longer see empty tanks—many new builds are doomed to failure, squandering monetary and natural resources in the process."

But if built, it will be reeking with irony. Think of it. Kidnapped and imprisoned marine creatures will be in our little aquarium, which sits on the shore of one of the most polluted lakes in the world. Obviously, a major tourist attraction. This action should put Onondaga County in America's top 10 of arrogant, stupid local government actions.

The aquarium is nothing more than a marine prison and a money pit.

Kill this project now.

## Public Comment on Proposed Local Law Regarding Reapportionment

**NOTICE:** This email originated from **outside** of Onondaga County's email system. **Use caution** with links and attachments.

Onondaga County Legislators,

The New York State Legislature, which has elections in 2022, has not adopted new maps and yet Onondaga County seems in a rush to approve maps that will not go in effect until 2023. With the proposed maps in front of you today, I ask you to vote for Map 3.

Map 3 is the only one that keeps districts as compact in form as practicable, and maintains cores of existing lines such as city, village, towns, and school districts.

Map 3 is the only map that keeps 5 districts within city lines which their population of over 148,000 requires.

Map 3 is the only map that keeps the Village of Manlius with the Town of Manlius.

Map 3 is the only map that follows the law and keeps the Town of Dewitt together as it only has a population of 26,000.

This is a 10 year decision, but looking at these maps side by side, it is not a hard decision. Vote for Map 3.

Thank you.

WHEREAS, from time to time County departments are subject to fluctuating costs for programs, goods or services because of vendor invoicing errors, imperfect cost projections, public emergencies and other unforeseen events; and

WHEREAS, some fluctuating costs and collected revenues may from time to time exceed the adopted budget as modified appropriation and revenue accounts; and

WHEREAS, generally accepted accounting principles require that all material costs incurred in a fiscal year must be accounted for in that fiscal year's financial reports; and

RESOLVED, that the County Legislature authorizes the County Comptroller, upon the approval of the County Executive and the Chairman of the Ways and Means Committee, to transfer 2021 unencumbered appropriation account balances between and among all Countywide appropriation accounts, to appropriate excess revenue and to appropriate fund balance to all Countywide appropriation accounts; and, be it further

RESOLVED, that a record of such transfers be prepared by the Comptroller's Office and presented to the Chairman of the Ways and Means Committee for review and approval following the closure of the County's 2021 financial records and that such report shall be presented to all members of the Ways and Means Committee within 15 days of closure of said financial records; and, be it further

RESOLVED, that the Comptroller and Finance Department Division of Management and Budget will respond, in writing, to the Chairman of the Ways and Means Committee regarding any item of transfer requiring an explanation; and, be it further

LOCAL LAW NO. \_\_\_ - 2021

A LOCAL LAW TO REAPPORTION THE ONONDAGA COUNTY LEGISLATURE BY  
AMENDING ARTICLE II, SECTION 206 OF THE ONONDAGA COUNTY CHARTER

BE IT ENACTED BY THE ONONDAGA COUNTY LEGISLATURE OF THE COUNTY OF  
ONONDAGA, NEW YORK, AS FOLLOWS:

Section 1. Findings.

Based upon its review and evaluation of all required and appropriate reapportionment criteria, this Legislature hereby determines that the county legislative districts set forth herein are as nearly equal in population as is practicable, that no district has been drawn with the intent or result of denying or abridging the equal opportunity of racial or language minority groups to participate in the political process or to diminish the ability to elect representatives of their choice, and that districts comply with principles of reapportionment, including one person – one vote, as required by law.

This Legislature, having duly reviewed and considered these proposed district changes, further finds and determines that this reapportionment plan complies with state and federal constitutional requirements, as well as all applicable federal, state and local laws. Without limitation, the reapportionment plan uses and meets the requirements of the Onondaga County Charter, the Onondaga County Administrative Code, New York State Municipal Home Rule Law Section 34, and the constitutional protections afforded by law.

This County Legislature encouraged community participation in the reapportionment process by providing for more than seven public hearings, allowing this Legislature to garner an unprecedented level of public input on proposed district changes. This Onondaga County Legislature has duly considered the public comments made throughout this process, and the reapportionment plan set forth in this local law addresses and responds to issues and concerns raised, all within the parameters allowable by law.

The intent of this reapportionment plan is to provide for constitutional and lawful representation, and it is the express finding of this Legislature that the reapportionment plan set forth herein accomplishes that intent.

### Section 3. Separability.

If any section, part or provision of this local law, including without limitation any part or provision relating to any district described herein, shall be adjudged invalid by a court of competent jurisdiction, such judgment shall: (1) be confined in its operation to the section, part or provision of this local law or the district or districts directly involved in the controversy in which such judgment shall have been rendered, (2) not affect or impair the validity of the remaining sections, parts, provisions or districts, and (3) not affect or impair the validity of the remaining apportionment or districting provided for in this local law. The Onondaga County Legislature hereby declares that it would have enacted this local law of such remaining parts, provisions or districts, had the invalidity of such part, provision or district been apparent at the time of such enactment.

### Section 4. Construction.

This local law shall be liberally construed to effectuate the purposes thereof and to apportion and district this county in compliance with the rulings of the United States Supreme Court and New York State Municipal Home Rule Law Section 34(4).

It is intended that this local law and the districts described herein completely encompass all the area within the county. It is also intended that such districts apportioned on the basis of 2020 population contain all the residents in this county. It is further intended that the apportionment and districting provided for in this local law result in the creation of districts containing substantially equal resident populations. It is also intended that no district shall include any of the area included within the description of any other district.

### Section 5. Permissive Referendum.

This reapportionment plan is adopted and is subject to a permissive referendum pursuant to the provisions of Onondaga County Charter Section 207 and Onondaga County Administrative Code Section 2.17. A petition signed, authenticated and filed by qualified electors of the County, registered to vote therein at the last preceding general election, in number equal to at least 10 per centum of the total number of votes cast for governor at the last gubernatorial election in the County, as provided in subdivision one of Section 24 of the Municipal Home Rule Law, within 45 days of adoption of this local law, shall be sufficient to require the submission of a proposition for the approval of such local law at a referendum in accordance with such subdivision. Petition and referendum procedures, including criteria for establishing or challenging the validity of such petition, shall be in accordance with subdivision one of Section 24 of the Municipal Home Rule Law.

### Section 6. Effective.

This local law shall become effective upon adoption and filing with the New York State Secretary of State. Provided, however, that if within 45 days after its adoption there be filed with the Clerk of the County Legislature a petition protesting against such local law, signed and authenticated in the manner set forth in subdivision one of Section 24 of the Municipal Home Rule Law by qualified electors of the County, registered to vote therein at the last preceding general election, in number equal to at least 10 per centum of the total number of votes cast for governor at the last gubernatorial election in the County, then such local law shall not take effect until approved by the affirmative vote of a majority of the qualified electors of the County voting on a proposition for its approval.

LOCAL LAW NO. \_\_\_ - 2021

A LOCAL LAW TO REAPPORTION THE ONONDAGA COUNTY LEGISLATURE BY  
AMENDING ARTICLE II, SECTION 206 OF THE ONONDAGA COUNTY CHARTER

BE IT ENACTED BY THE ONONDAGA COUNTY LEGISLATURE OF THE COUNTY OF  
ONONDAGA, NEW YORK, AS FOLLOWS:

Section 1. Findings.

Based upon its review and evaluation of all required and appropriate reapportionment criteria, this Legislature hereby determines that the county legislative districts set forth herein are as nearly equal in population as is practicable, that no district has been drawn with the intent or result of denying or abridging the equal opportunity of racial or language minority groups to participate in the political process or to diminish the ability to elect representatives of their choice, and that districts comply with principles of reapportionment, including one person – one vote, as required by law.

This Legislature, having duly reviewed and considered these proposed district changes, further finds and determines that this reapportionment plan complies with state and federal constitutional requirements, as well as all applicable federal, state and local laws. Without limitation, the reapportionment plan uses and meets the requirements of the Onondaga County Charter, the Onondaga County Administrative Code, New York State Municipal Home Rule Law Section 34, and the constitutional protections afforded by law.

This County Legislature encouraged community participation in the reapportionment process by providing for more than seven public hearings, allowing this Legislature to garner an unprecedented level of public input on proposed district changes. This Onondaga County Legislature has duly considered the public comments made throughout this process, and the reapportionment plan set forth in this local law addresses and responds to issues and concerns raised, all within the parameters allowable by law.

The intent of this reapportionment plan is to provide for constitutional and lawful representation, and it is the express finding of this Legislature that the reapportionment plan set forth herein accomplishes that intent.

### Section 3. Separability.

If any section, part or provision of this local law, including without limitation any part or provision relating to any district described herein, shall be adjudged invalid by a court of competent jurisdiction, such judgment shall: (1) be confined in its operation to the section, part or provision of this local law or the district or districts directly involved in the controversy in which such judgment shall have been rendered, (2) not affect or impair the validity of the remaining sections, parts, provisions or districts, and (3) not affect or impair the validity of the remaining apportionment or districting provided for in this local law. The Onondaga County Legislature hereby declares that it would have enacted this local law of such remaining parts, provisions or districts, had the invalidity of such part, provision or district been apparent at the time of such enactment.

### Section 4. Construction.

This local law shall be liberally construed to effectuate the purposes thereof and to apportion and district this county in compliance with the rulings of the United States Supreme Court and New York State Municipal Home Rule Law Section 34(4).

It is intended that this local law and the districts described herein completely encompass all the area within the county. It is also intended that such districts apportioned on the basis of 2020 population contain all the residents in this county. It is further intended that the apportionment and districting provided for in this local law result in the creation of districts containing substantially equal resident populations. It is also intended that no district shall include any of the area included within the description of any other district.

### Section 5. Permissive Referendum.

This reapportionment plan is adopted and is subject to a permissive referendum pursuant to the provisions of Onondaga County Charter Section 207 and Onondaga County Administrative Code Section 2.17. A petition signed, authenticated and filed by qualified electors of the County, registered to vote therein at the last preceding general election, in number equal to at least 10 per centum of the total number of votes cast for governor at the last gubernatorial election in the County, as provided in subdivision one of Section 24 of the Municipal Home Rule Law, within 45 days of adoption of this local law, shall be sufficient to require the submission of a proposition for the approval of such local law at a referendum in accordance with such subdivision. Petition and referendum procedures, including criteria for establishing or challenging the validity of such petition, shall be in accordance with subdivision one of Section 24 of the Municipal Home Rule Law.

### Section 6. Effective.

This local law shall become effective upon adoption and filing with the New York State Secretary of State. Provided, however, that if within 45 days after its adoption there be filed with the Clerk of the County Legislature a petition protesting against such local law, signed and authenticated in the manner set forth in subdivision one of Section 24 of the Municipal Home Rule Law by qualified electors of the County, registered to vote therein at the last preceding general election, in number equal to at least 10 per centum of the total number of votes cast for governor at the last gubernatorial election in the County, then such

local law shall not take effect until approved by the affirmative vote of a majority of the qualified electors of the County voting on a proposition for its approval.
