MEMORANDUM IN SUPPORT

TITLE: AMENDING THE DESIGN (SCOPING I-VI) AND RIGHT-OF-WAY INCIDENTALS PHASE OF THE ONONDAGA BOULEVARD (CR 240) PAVING PROJECT, PIN 3756.75 BY \$150,000, AND INCREASING THE AUTHORIZATION TO PAY IN THE FIRST INSTANCE 100% OF THE FEDERAL AID ELIGIBLE COSTS BY \$120,000, AMENDING RES NO. 73-2022, AND AUTHORIZING THE EXECUTION OF AGREEMENTS

Purpose: This legislation will authorize the Comptroller to pay in the first instance and additional \$120,000 of federal reimbursable monies for the Design and Right-of-way Incidentals phase of the Onondaga Boulevard 2R Paving Project, PIN 3756.75.

Summary: The objective of this project is to provide a two-course pavement treatment for Onondaga Boulevard between Fay Road and Velasko Road in the City of Syracuse, and in the Towns of Onondaga and Geddes. A safety alternative to reduce speed and vehicular crashes is being investigated, and likely will include reducing the highway from four lanes to three west of the Western Lights commercial area. Given that Westhill High School is within the project limits, pedestrian and bicycle accommodations are being explored. Drainage, roadside obstacle, guiderail, signage, and striping improvements will be made as part of the project. Finally, the traffic signals at the Wegmans entrance and at Velasko Road will be replaced. Construction is anticipated to be in 2027.

Fiscal Impact: This authorization is for the Design and Right-of-way Incidentals phase of the project, which is funded with 80% Federal Dollars, and 20% local dollars. The additional local share cost of \$30,000 is being funded through OCDOT's workplans.

PROJECT TYPE: Maintenance & Rehabilitation

PROJECT STATUS: Proposed

BUDGET STATUS: Not Authorized

PHASE STATUS: Planning

SUMMARY

Rehabilitation project to improve the Jamesville and Marcellus DOT maintenance facilities.

TOTALS	-	500	2,150	-	-	-	-	2,650	2,650

SCOPE & DETAILS

The Marcellus and Jamesville DOT Maintenance Facilities were built in 1989 and 2000, respectively. Neither facility has received upgrades in recent years, and repairs are needed.

The plan includes renovating the Jamesville & Marcellus Maintenance Shops to bring them up to current standards. Specifically, the employee work areas will be upgraded including new furniture, flooring, paint, and ceilings (in breakrooms, offices, bathrooms, and locker rooms). Also, the plan includes renovating infrastructure critical to DOT operations such as replacing overhead garage doors (and motors), HVAC, plumbing, and interior and exterior walking and driving surfaces consisting of failing asphalt & concrete. These improvements are necessary to increase the useful life of the facilities and provide a safer environment in which to work.

In spring 2025 we intend to seek legislative authorization for \$2,650,000 in bonds to finance this project.

TITLE: AMENDING THE 2025 COUNTY BUDGET TO PAY IN THE FIRST INSTANCE 100 PERCENT OF THE FEDERAL AND STATE AID ELIGIBLE COSTS AT A MAXIMUM AMOUNT OF \$5,320,000 FOR THE CONSTRUCTION PHASE OF THE ROUTE 57 & SOULE ROAD PAVING PROJECT, PIN 3756.72, AND AUTHORIZING EXECUTION OF AGREEMENTS

Purpose: This legislation will authorize the Comptroller to pay in the first instance \$5,320,000 of federal and state reimbursable monies for the Construction phase of the Route 57 & Soule Road Paving Project, PIN 3756.72.

Summary: The work will include milling with a two-course asphalt pavement treatment (including isolated full depth reconstruction) on Route 57 from Pine Hollow Drive to Calder Court, and on Soule Road from Route 57 to Fairways East in the Town of Clay. Lane reductions are proposed to be implemented on Old Route 57 at the intersection with Soule Road. The objective of the lane reductions is to enhance safety and provide improved pedestrian accommodations. This will be accomplished through a combination of striping changes and narrowing of the pavement width. On the southbound approach, the lane reduction will allow for the installation of 800-feet of curbed sidewalk. Also, a new traffic signal will be installed at Fairways East, and all enclosed drainage and culverts within the corridor will be cleaned. Signage will be installed as needed to address existing deficiencies. Construction is anticipated in 2026.

Fiscal Impact: This authorization is for the Construction phase of the project, which is funded with 80% Federal dollars, 15% State dollars, and 5% local dollars. The local share cost of \$280,000 is being funded through OCDOT's workplans.

Purpose: This legislation will authorize the Comptroller to pay in the first instance \$1,938,000 of federal reimbursable monies for the Design and Construction phases of the Peck Road Bridge (C-192) over Chittenango Creek project, PIN 3757.48. Re: 2025 Sewer Unit Charge Inquiry

Dear Mr. Pitterman:

The Department of Water Environment Protection (WEP) has reviewed your inquiry of the 2025 sewer unit charges for the following properties:

Property #	Swis	Print	Address
Property #1	312689	031.-05-01.1	407 N Midler Ave
Property #2	312689	031.-05-01.2	407 N Midler Ave
Property #3	312689	031.-05-02.0	405 N Midler Ave

Pursuant to the Onondaga County Administrative Code Section 11.79 and Resolution 563-1978, properties within the Onondaga County Consolidated Sanitary District are assessed a sanitary sewer unit charge based on property type, as outlined below:

Property Type	Assessment Calculation
Residential	One unit each per single-family structure, mobile home, townhouse, condominium
Multi-Family Residential	$\frac{3}{4}$ unit per residence
Commercial, Industrial, Institutional	Assessed based on water consumption, or one unit per commercial space, whichever is greater with a minimum of one unit
Mixed-Use (Commercial with Residential)	Assessed based on water consumption or the combined total of residential and commercial units as defined above, whichever is greater with a minimum of $1\frac{3}{4}$ units

Initial Assessment Review

The original 2025 sewer unit charge assessment for the three properties was based on information from the Onondaga County Real Property database. This information is outlined below. Also attached are Property Summary Records from the Real Property database.

Property #	# of Residential Units	# of Commercial Units	Total Water Consumption	Units Based on Water Consumption	Total Sewer Units
Property #1	41	0	n/a	0	41
Property #2	68	2	2,645,000	26.45	55.25
Property #3	0	0	n/a	0	0

Property #1 was assessed one sewer unit per residential unit as defined by Resolution 563-1978.

Property #2 was assessed based on the greater of total water consumption (26.45) or the combined total of residential and commercial units (55.25). However, it was discovered that the initial assessment incorrectly categorized the residential units as multi-family, applying a $\frac{3}{4}$ unit rate instead of one unit per dwelling. The commercial units were assessed correctly.

Property #3, classified as "Vacant Commercial" in the Real Property database was assumed to be unconnected from the public sewer system and was not assessed a sanitary sewer unit.

Field Investigation Findings

Following a field investigation conducted on January 17, 2025, WEP identified the following residential and commercial units on each property. Attached is a map supporting WEP's findings.

Property #	Residential Units	Commercial Units	Total Sewer Units
Property #1	34 mobile housing units	0	34
Property #2	20 mobile housing units 1 single-family house	1 commercial property 1 garage	22
Property #3	4 mobile housing units	0	4

In accordance with Resolution 563-1978, each of the residential and commercial units has been assigned one sewer unit each, except for the garage on Property #2 as it is assumed not to have sewer connection.

Revised Assessment

This Department is recommending to Real Property an adjustment to the 2025 tax roll to reflect the findings of its field investigation for each of the above properties as follows:

Property #	Original Sewer Units Assessed	Revised Sewer Units Assessed
Property #1	41	34
Property #2	55.25	22
Property #3	0	4
<i>Sum of Units</i>	<i>96.25</i>	<i>60</i>
<i>Unit Rate</i>	<i>\$452.81</i>	<i>\$452.81</i>
Total Sewer Unit Charge	\$43,582.96	\$27,168.60

Annual Verification Requirement

It is understood that the Real Property database reflects the potential number of residential units on mobile housing properties rather than the actual number of residential units connected to the sewer system. To ensure accurate sewer unit assessment in future years, you are required to submit a completed and notarized affidavit (attached) to this Department by April 30 each year for consideration in the following year's assessment. This documentation can be submitted by mail to the address below or by email to WEPsewerunit@ongov.net.

Please feel free to contact this Department with any questions or further clarification.

Sincerely,

 **WEP Sewer Unit**
