Bureau of Disease Control (BDC)

PURPOSE:

The Bureau of Disease Control is requesting to update the fee schedule to include the cost of private-stock vaccine.

BACKGROUND:

To increase efficiencies, all Article 28 operations (public health care facilities that are governed by state law) have been centralized under the Bureau of Disease Control. The BDC now oversees and operates the department's immunization clinics.

The Immunization Clinic is mandated to provide immunizations to students (including certain post-secondary students) who cannot pay for or receive their NYS required vaccinations from a health practitioner in the prescribed timeframe. Those vaccines are provided through the NYS Vaccine for Children (VFC) program.

New American (NA) arrivals are provided medical-assistance through the Refugee Medical Assistance program. Children with Medicaid qualify for VFC, however, adults with Medicaid (including NA) do not meet the State's guidelines for the Vaccine for Adults (VFA) program.

The BDC also provides select vaccines to patients in the Bureau of Disease Control / Sexual Wellness Clinic that is covered by grant programs serving our clients.

We propose to follow best practice and establish a fee schedule for private stock vaccine. The expectation is not to become a vaccine provider, but rather as a safety net, be able to recover insurance payments when private stock is needed. The intention of the fee schedule is not to transfer the provision of immunization services costs to patients; this would enable the County to bill insurances (where eligible).

A list of vaccines and the current range of fees the County pays for them is attached.

FUNDING / BUDGET IMPACT:

None. We are proposing to bill insurances when we provide private stock vaccines.

RESOLUTION NO. _____

AMENDING THE 2024 COUNTY BUDGET TO MAKE SURPLUS ROOM OCCUPANCY FUNDING AVAILABLE FOR USE IN SUPPORT OF A HOTEL INITIATIVE

WHEREAS, there are prior year surplus room occupancy tax funds available, and it is necessary to amend the 2024 County Budget to make such funds available for use in direct support of a hotel initiative to incentivize private sector investment in new, quality, hotel rooms in Onondaga County due to a shortage thereof and the need to accommodate visitors and tourists, and in order to promote, sustain, and increase convention, trade show, and tourist business in the County; now, therefore be it

RESOLVED, that the 2024 County Budget is amended as follows:

REVENUES:

|---|-------------|
| In Admin Unit 2365300000 | |
| County Promotion | |
| In Speed Type #140814 | |
| In Project 719010 – Hotel Initiative | |

|--|-------------|
| In Admin Unit 2365300000 | |
| County Promotion | |

| In Project 719010 – Hotel Initiative | |
| In Account 694100 – All Other Expenses | \$4,000,000 |

Onondaga County Hotel Initiative

Tourism and convention business have served as a key driver of revenue and growth with respect to the local economy. Key to that success has been an abundance of diverse and quality hotel rooms and meeting spaces. In recent years, we have seen a significant number of hotels come offline and subsequently jeopardize our ability to attract new convention business or accommodate visitors and tourists to the area.

Further compounding the issue is the massive influx of people expected as result of the investments being made by Micron at the White Pine Commerce Park. In 2025 another major tourism attraction will be coming online with the Onondaga County Aquarium at the Inner Harbor. We will be hosting a variety of conferences including the New York State County Clerks Association and the New York State Association of Fire Chiefs. These are just a few examples of the clear and immediate need for new, quality hotel rooms in Onondaga County. To incentivize this private sector investment, Onondaga County has created the Onondaga County Hotel Initiative.

The Onondaga County Hotel Initiative will be seeded with \$4,000,000 and award grants ranging from \$50,000 to \$750,000 to developers to assist in closing funding gaps in new hotel construction and/or incentivize existing hotels to add rooms to their current hotel stock in Onondaga County. Criteria will be established to grade each proposal including, but not limited to, type of hotel, how quickly it will come online and location.

Onondaga County Community Development will operate the Onondaga County Hotel Initiative and funding awards will be made on a rolling basis.

Developers will submit documentation showing they have a viable project, financing in place and identify the projects funding gap to proceed. After initial review of the developer's submission, a meeting with the developer and the Onondaga County Hotel Initiative review team will be held. The review team will consist of the Director of Community Development, a representative from the Office of the County Executive, the chair of the Onondaga County Economic Development and Planning Committee of the County Legislature as well as representatives from Visit Syracuse, CenterState CEO and ASM. Developers who are awarded this funding will be notified by Community Development and the disbursement of funds will be determined between the county and the developer.

Information on proposed projects to be considered for this funding may be submitted electronically at: cd@ongov.net

If you have any questions or need more information, please contact Marty Skahen, Director of Community Development, at martinskahen@ongov.net or 315-435-3558.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

LOCAL LAW NO. ____ - 2024

A LOCAL LAW OPTING OUT OF THE EXEMPTION FROM TAXATION FOR CERTAIN ENERGY SYSTEMS UNDER REAL PROPERTY TAX LAW SECTION 487

BE IT ENACTED BY THE COUNTY LEGISLATURE OF THE COUNTY OF ONONDAGA, AS FOLLOWS:

Section 1. Purpose and Intent. Real Property Tax Law (RPTL) § 487 provides that a solar or wind energy system, farm waste energy system, micro-hydroelectric energy system, fuel cell electric generating system, micro-combined heat and power generating equipment system, electric energy storage equipment and electric energy storage system, or fuel-flexible linear generator electric generating system (collectively, “energy systems”) shall be exempt from real property taxation to the extent of any increase in the value thereof by reason of the inclusion of such energy system. This local law is enacted to opt out of and remove said exemption, as provided for by RPTL § 487(8).

Section 2. Removal of Exemption.

1. No tax exemption under RPTL § 487 shall be applicable to Onondaga County taxes with respect to any solar or wind energy system or farm waste energy system which began construction subsequent to the effective date of this local law.
2. No tax exemption under RPTL § 487 shall be applicable to Onondaga County taxes with respect to any micro-hydroelectric energy system, fuel cell electric generating system, micro-combined heat and power generating equipment system, electric energy storage equipment or electric energy storage system, or fuel-flexible linear generator electric generating system constructed subsequent to the effective date of this local law.
3. As defined in RPTL § 487(8)(b), “construction” of a solar or wind energy system or a farm waste energy system shall be deemed to have begun upon the full execution of a contract or interconnection agreement with a utility; provided however, that if such contract or interconnection agreement requires a deposit to be made, then construction shall be deemed to have begun when the contract or interconnection agreement is fully executed and the deposit is made. The owner or developer of an energy system is responsible for substantiating when such energy system began construction or was constructed.

Section 3. Effect on Prior Legislation.

Resolution No. 108-2022 shall remain in full force and effect only with respect to an energy system which began construction or was constructed, as set forth in Section 2 of this local law, prior to the effective date of this local law. In all other respects, Resolution No. 108-2022, and any additional resolution or local law concerning RPTL § 487, is hereby superseded.

Section 4. Partial Invalidity.

If any section of this local law shall be held unconstitutional, invalid, or ineffective, in whole or in part, such determination shall not be deemed to affect, impair, or invalidate the remainder of this local law.

Section 5. Filing.

A copy of this local law shall be filed with the Commissioner of the New York State Department of Taxation and Finance and with the President of the New York State Energy Research and Development Authority.

Section 6. Effective Date.
