RE: Environmental Director position

Dear County Leaders,

It would be a pleasure to assist the leadership of Onondaga County with on-going and future efforts to build, rebuild, protect and promote the natural environment in Onondaga County. The County's effort to rebuild CNY into a vibrant economic center while maintaining the natural environment and protecting what is best about the existing communities is to be commended.

To your efforts I will bring decades of experience working with grassroots and State and local officials to achieve your goals. Not only do I have the training and expertise to understand the interaction between the natural environment and the built environment, but I have taught it - right here at Onondaga Community College. I come with existing relationships with State and local officials and agencies, an understanding of the political environment and the training and experience to create productive citizen engagement.

One of my most successful accomplishments in the past five years was the shepherding in of the new Superior Metals Manufacturing factory, sister company to CPP, during the early days of the COVID pandemic. I provided the professionalism that demonstrated to the parent company that the Village was indeed interested in a new factory, providing another 80+ good paying jobs. I also worked with the company's project manager and engineering team to integrate the new factory seamlessly into the Village next to a park; all without a noticeable impact to the natural or visual surroundings, protecting the viewshed from the Empire Trail.

Central New York is a great place to live and I would like to help you achieve your goals. I look forward to speaking with you further about how I can assist you.

Sincerely,
