

# **Clean Energy and Your Comprehensive Plan**

**Jennifer Manierre, Program Manager**

**Onondaga County Planning Federation Symposium**

**March 9, 2023**

**NYSERDA**

# Agenda:

- **Introduction**
- **Overviews:**
  - Clean Energy
  - Comprehensive Planning
- **Clean Energy and Your Comprehensive Plan**
- **Resources**

# Introduction

**Jennifer Manierre, Program Manager  
Clean Energy Siting, NYSERDA**

**Clean Energy Siting Team:  
[www.nyserda.ny.gov/Siting](http://www.nyserda.ny.gov/Siting)**

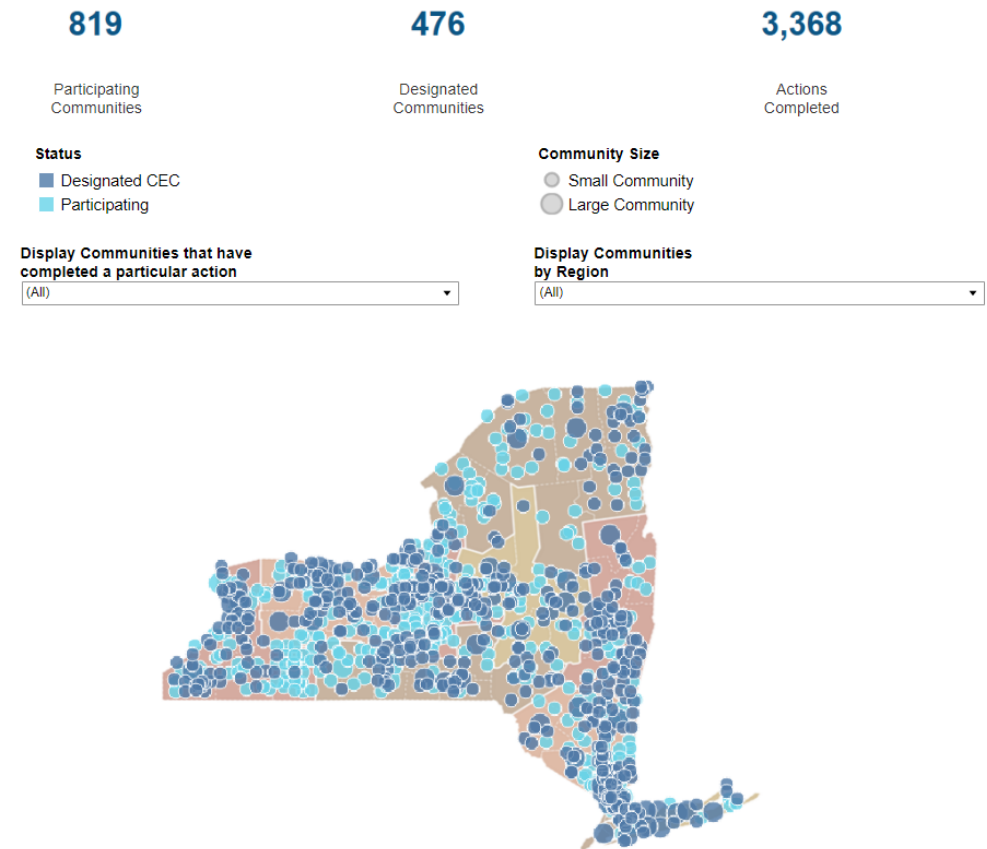

# Introduction

## Clean Energy Communities Program

### High Impact Actions

1. Unified Solar Permit
2. Energy Code Enforcement Training
3. PACE Financing
4. Clean Energy Upgrades
5. 100% Renewable Electricity
6. Clean Heating and Cooling Demo
7. Climate Smart Communities Certification
8. LED Street Lights
9. County-Hosted Trainings
10. Clean Fleets
11. Benchmarking
12. Community Choice Aggregation
13. Community Campaigns

[www.nyserda.ny.gov/CEC](http://www.nyserda.ny.gov/CEC)

# **Overview: Clean Energy in NYS**

# The Climate Leadership and Community Protection Act (Climate Act)

## Electricity Sector Goals:

- 70% Renewable Electricity by 2030
- 100% Emissions-Free Grid by 2040

## Technology-Specific Goals:

- 10,000 MW Distributed Solar by 2030
- 9,000 MW Offshore Wind by 2035
- 1,500 MW Energy Storage by 2025;  
3,000 MW by 2030\*

# Clean Energy Intro: Solar Energy

- **Solar Photovoltaics (PV) vs. Concentrated Solar Power (CSP) vs. Solar Thermal**
  - **Types of Solar PV installations:**
    - Residential
    - Commercial
      - Community Solar
    - Utility-Scale
- “Behind the Meter”**  
Rooftop or Ground-Mounted
- “Front of the Meter”**  
Ground-Mounted
- **Ground-Mounted Solar**
    - 5-7 acres per MW
    - 100-200 homes per MW

# Clean Energy Intro: Wind Energy

## System Components:

1. Rotor
2. Nacelle
3. Tower

## System Characteristics:

- Increasing turbine capacities/sizes:
  - 2-3 MW/turbine
  - Increased rotor diameters
  - Increased tower/hub heights
- Onshore wind turbines typically smaller than offshore

# Clean Energy Intro: Energy Storage

## System Components:

- Cells -> Modules -> Racks
- Battery Management System (BMS)

## Installation Types:

- Residential
  - Commercial
  - Utility-Scale
- "Behind the Meter"**
- "Front of the Meter"**

## Details/Purposes:

- Often paired with intermittent renewables
- Backup power
- "Energy arbitrage"
- Grid upgrade deferrals
- Grid services

# Primary Land Use/Local Considerations

## All technologies:

- Appropriate location/zoning
- Environmental impacts
- Bulk/area standards
- Decommissioning
- Taxation

## Solar:

- Visual/aesthetic impacts
- Agricultural land impacts

## Wind:

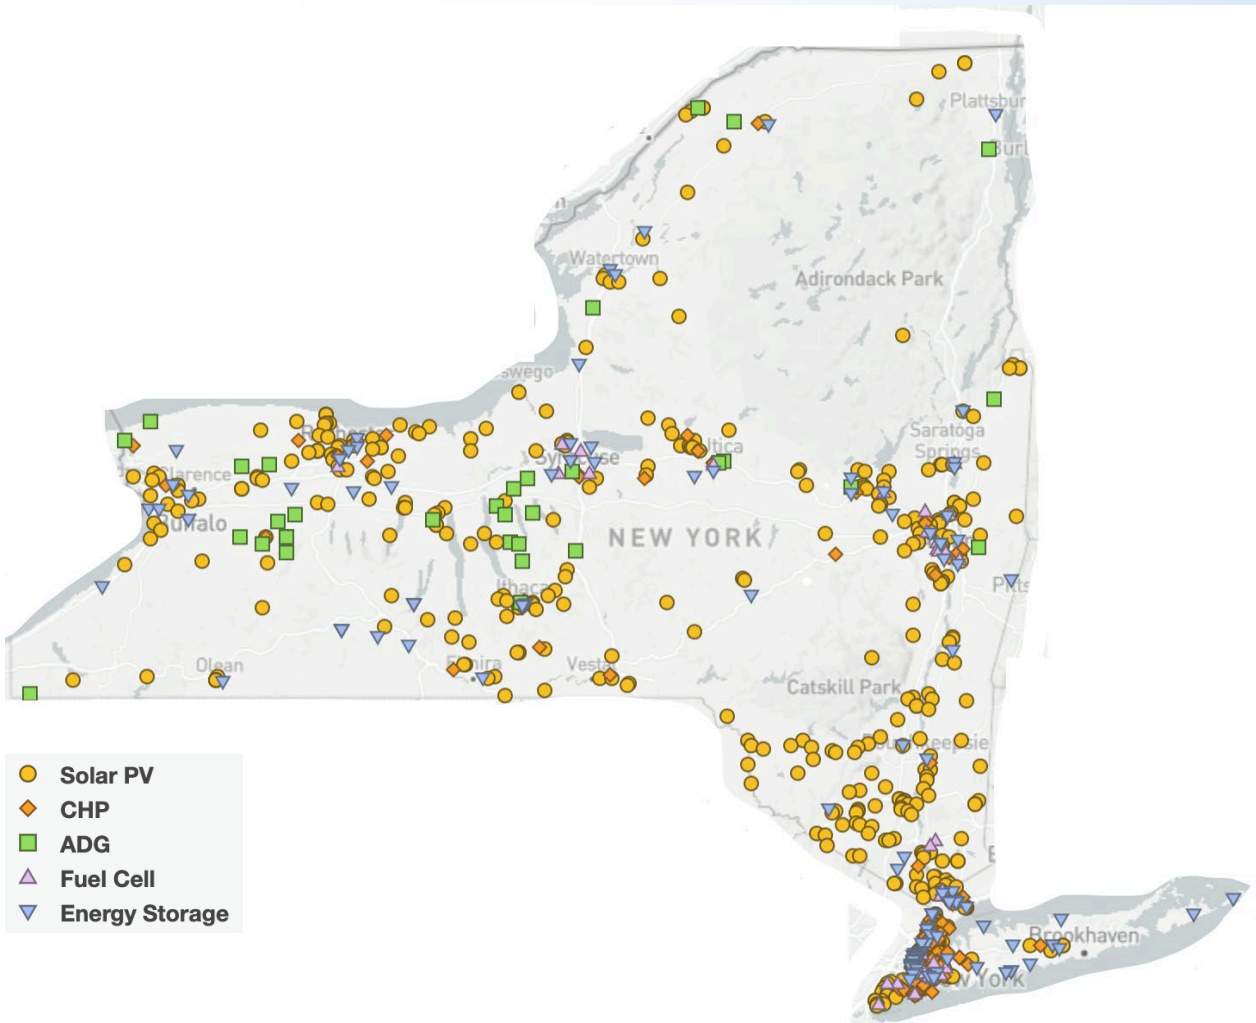

- Visual/aesthetic impacts
- Noise
- Shadow flicker

## Energy Storage:

- Fire safety
- Incident management training

# Snapshot: Clean Energy in NYS

# Clean Energy in NYS

**Processes for regulating/permitting clean energy development will vary based on size and type of the installation.**

## For solar/wind:

- **Projects < 25 MW: Permitted at local level (SEQR, municipal requirements)**
- **Projects > 25 MW: Permitted at State level (Article 10, Office of Renewable Energy Siting [ORES])**
- **Projects between 20 – 25 MW: May opt-in to State-level siting process through ORES**

## For energy storage:

- **Projects paired (or “co-located”) with large-scale renewable generators: Permitted at State level**
- **Projects not paired with large-scale generators: Permitted at local level**

An aerial photograph of a large-scale solar farm. The solar panels are arranged in neat, parallel rows across a cleared area. The surrounding landscape is lush with trees displaying vibrant autumn colors in shades of yellow, orange, and red. In the distance, a winding river is visible, and the horizon is hazy under a cloudy sky. The text 'Overview: Comprehensive Planning in NYS' is overlaid in a bold, blue font.

# **Overview: Comprehensive Planning in NYS**

# Comprehensive Planning in NYS

## Defining the Comprehensive Plan:

**“Materials, written and/or graphic, including but not limited to maps, charts, studies, resolutions, reports and other descriptive material that identify the goals, objectives, principles, guidelines, policies, standards, devices and instruments for the immediate and long-range protection, enhancement, growth and development of the [municipality]”**

# Comprehensive Planning in NYS

## Defining the Comprehensive Plan:

**descriptive material**  
**principles, guidelines, policies, standards, devices and instruments**  
**goals, objectives,**  
**immediate and long-range protection,**  
**enhancement, growth and development**

# Comprehensive Planning in NYS

- **The *What*:** what the community looks like now, and what it is envisioned to look like in the future.
  - **The *How*:** how the community plans to get there.
  - **The *Why*:** why those plans – or that future – is worth preserving/protecting/pursuing.
  - **Relationship with Zoning**
    - Villages: Village Law §7-722
    - Towns: Town Law §272-a
    - Cities: General City Law §28-a'
    - Counties: General Municipal Law § 239-d
- 
- “Land use regulations must be in accordance with a comprehensive plan”**

# Comprehensive Planning in NYS

## Why is the Comprehensive Plan Important?

- **Zoning and Land-Use Regulations**
- **Consideration by other agencies (County/State/Federal)**
- **Helps ensure planning is not *responsive* to development**
- **Encourages communication & transparency**
- **Documentation of community's past/present/future**
- **Many other reasons!**

# Comprehensive Planning in NYS

## Key Considerations for Comprehensive Planning:

- **Documenting, Studying, and Understanding Existing Conditions (land uses, resources, etc.)**
- **Soliciting and Obtaining Community Input**
- **Adherence to a Consistent Process/Structure:**
  - Identify clear goals
    - Select and define objectives/strategies
    - Develop implementation plans
- **Funding!**

# Comprehensive Planning in NYS

## Comprehensive Planning as a Proactive vs. Reactive Exercise

# NYS Training & Resources

## NYS Dept. of State, Division of Local Government Services

Comprehensive Planning

SECTIONS

Course Overview

Resources Provided by DOS

Webinar Recording

### Resources Provided by DOS

	<p><b>Zoning and the Comprehensive Plan</b></p> <p>This document explains the legal relationship between the comprehensive plan and municipal zoning regulations.</p>	 <b>DOWNLOAD</b>
	<p><b>Guide to Planning and Zoning Laws of New York State</b></p> <p>This essential publication is for municipal officials, attorneys, and planning boards. It has the complete text of relevant laws, including statutory changes from the 2010 Legislative Session.</p>	 <b>DOWNLOAD</b>

A photograph showing a flock of sheep grazing in a grassy field. To the right of the sheep is a large array of solar panels. In the background, there is a dense line of trees under a cloudy sky. The text "Clean Energy and Your Comprehensive Plan" is overlaid in the center in a bold blue font.

# **Clean Energy and Your Comprehensive Plan**

# Early Stages: Why Plan for Clean Energy?

- **It's in the name:  
Comprehensive Plan**
- **NYS Enabling Statutes:  
“in accordance with a  
comprehensive plan”**
- **Benefits:**
  - Tangible representation of jurisdiction's priorities and policies
  - Clarity for municipal boards, decision makers, project developers, etc.
  - May strengthen jurisdiction's position in event of legal dispute, challenge
  - Access to grants and incentives

## Defining & Understanding Clean Energy:

Important to ensure that scope of community's understanding of/plans for clean energy aligns with technologies and programs supporting NYS programs/goals.

As such, “clean energy” should consider:

- (1) Renewable generating technologies
- (2) Technologies, strategies, and concepts which support implementation of renewables

# Comprehensive Planning and Large-Scale Renewables

## Permitting Regimes for Large-Scale Renewable Generators:

### Article 10:

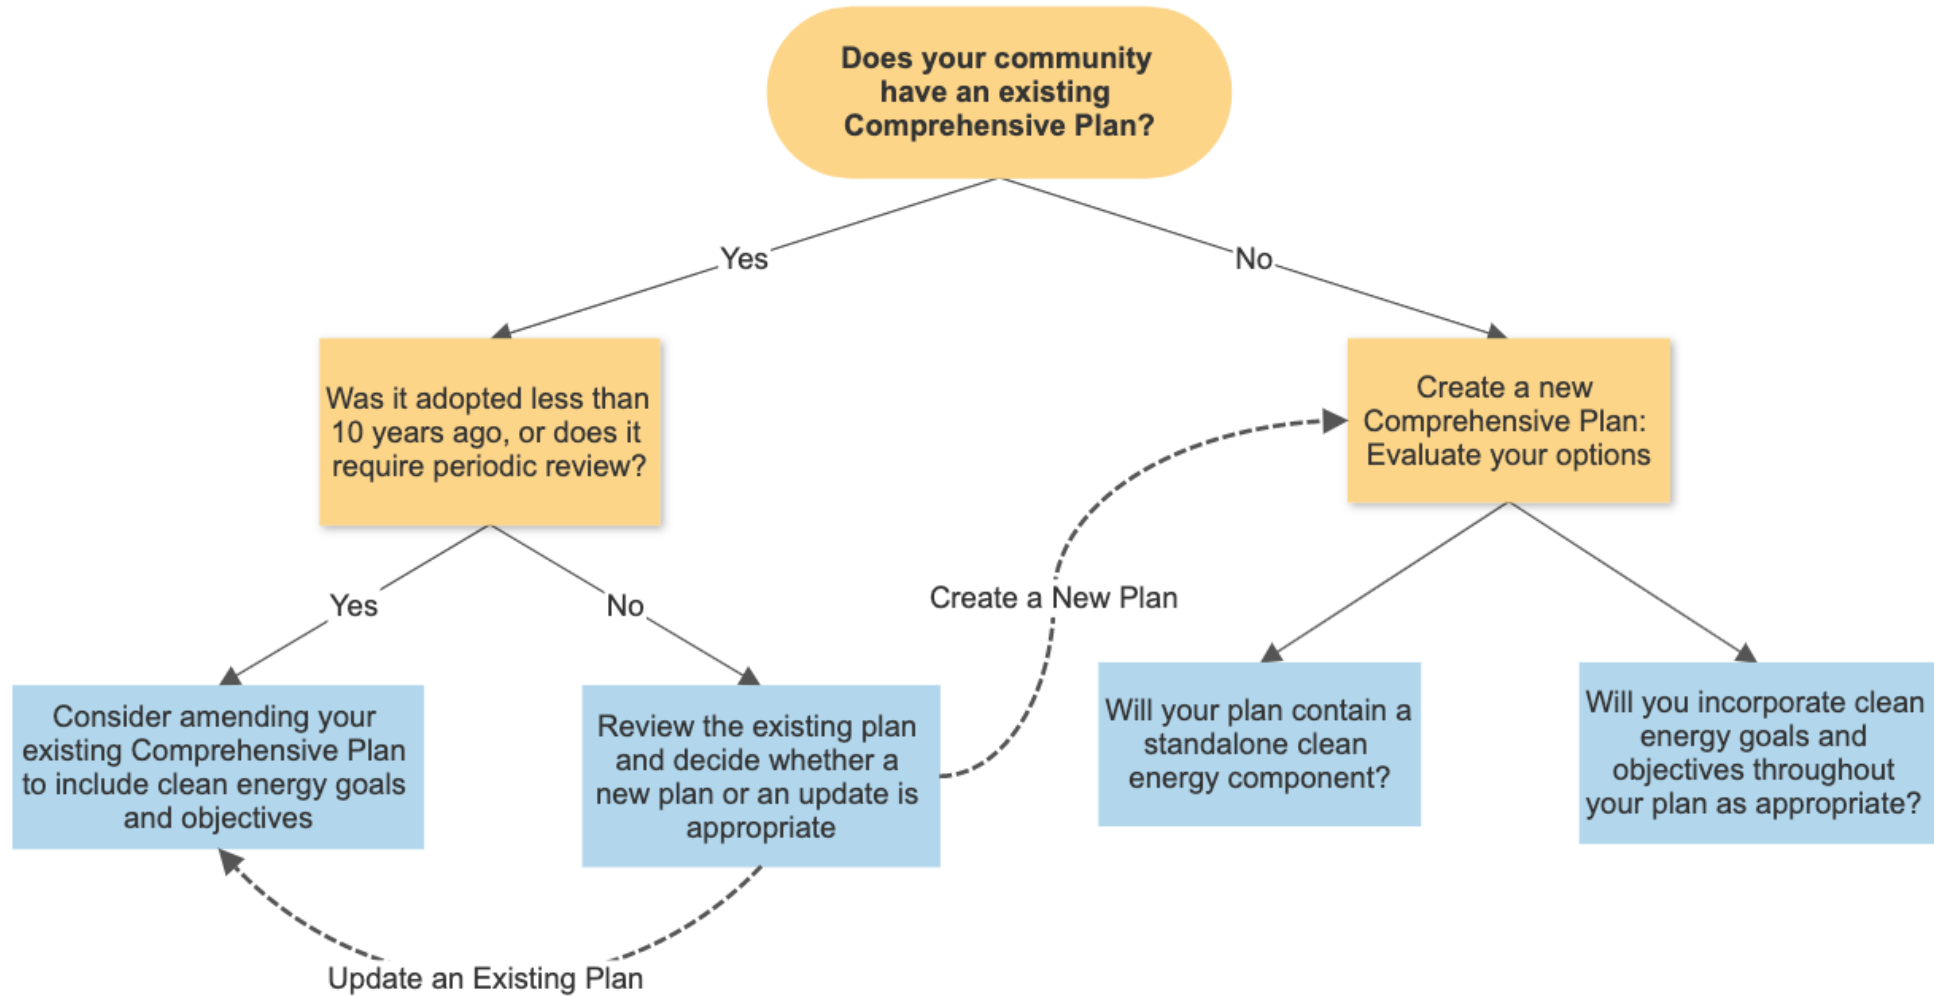

- **Exhibit 4: Land Use**

### ORES:

- **Exhibit 3: Location of Facilities and Surrounding Land Use**

**“A statement as to whether any applicable local jurisdiction has an adopted comprehensive plan applicable to lands on which facility components or ancillary facilities are located and whether the proposed facility is consistent with such comprehensive plan. A copy of the plan shall be provided in the application, with an indication of plan sections applicable to the proposed uses.”**

# Selecting a Plan Format & Process

# Land-Use Moratoria

**The What:**     **A local law or ordinance suspending (for a reasonable time) property owners' rights to obtain development approvals.**

**The Why:**     **Grant time to consider, draft, and adopt land-use plans to respond to circumstances not adequately dealt with under its current laws.**

**The How:**     **Requires the local legislature to formally adopt and file a law or ordinance.**

## **Things to Consider:**

- “Reasonableness”
- Impacts on landowners/community
- Specificity of timeline & scope
- Legal standing

# Steps: Comprehensive Planning for Clean Energy

## **(1) Adopt a policy resolution or statement**

- Assert overall goals of comprehensive planning process regarding clean energy
- State intention to consider clean energy development in municipal plans, regulations.
- Outline previously identified plan format/process (New plan? New component?)

## **(2) Identify funding and resources required**

- Can be incorporated into resolution/statement
- Consideration of using of in-house municipal staff, County/regional planning staff, volunteers, hired consultants, etc.
- Identify and apply for grant funding, as available.

# Comprehensive Planning for Clean Energy

## **(3) Identify the body/individuals charged with developing the plan**

- Can be incorporated into resolution/statement
- Whether it be the local legislature, Planning Board, or Special Board/Committee, ensure individuals are educated and up to speed on clean energy programs, goals, and technologies.

## **(4) Determine existing conditions**

- Numerous existing conditions considerations relevant to clean energy

### **Examples of Existing Conditions Related to Clean Energy:**

#### Energy & Grid Considerations:

- Utility hosting capacity
- Proximity to grid infrastructure
- Municipal energy profile

#### Agricultural Considerations:

- Lands in Certified Ag Districts or under Ag Assessments
- Soil types/qualities

#### Environmental Considerations:

- Environmental resources assessments (endangered/sensitive species, wetlands, etc.)

#### Socioeconomic Considerations:

- Disadvantaged communities, environmental justice communities

# Example: Determine Existing Conditions

## Utility Hosting Capacity Mapping Exercise

Purposes of this exercise:

- **Visualize local energy distribution infrastructure**
- **Identify general potential locations for solar development based on select criteria:**
  - Grid proximity
  - Grid hosting capacity
  - Existing zoning
  - Proximal land use

# Example: Determine Existing Conditions

## Utility Hosting Capacity Mapping Exercise

# Comprehensive Planning for Clean Energy

## (5) Design Effective Public Outreach and Education

- Input from a wide range of diverse stakeholders is key; for clean energy, that may include utility representatives and local/regional environmental groups and non-profits.
- Allows you to formulate community concerns, issues, problems, and priorities.
- Should include questions/opportunities focused on feedback regarding sustainability and clean energy.

**Example:** Comp Plan Committee meeting notice on Town's website:

WED  
**2**

June 2 @ 7:00 pm - 11:00 pm

**June 2021: Comprehensive Plan Committee Mtg**

Via zoom ONLY. No persons will be allowed in the Town Hall.

<https://zoom.us/j/93504498481> Meeting ID # 93504498481 Phone: 646-558-8656

## (6) Create Clean Energy Content for Your Plan!

# Comprehensive Planning for Clean Energy

## (7) Complete the legally required process

- Referral of approved plan by Planning/Special Board to local legislature, Planning Board, County/Regional planning authority, etc.
- Public hearing(s)
- Environmental review (SEQR), Agricultural review (if needed)
- Establish terms for periodic review

## (8) Publicize, disseminate, and implement the plan!

**Example:** GEIS prepared for Comp Plan Adoption, as required in accordance with SEQR

**FINAL SUPPLEMENTAL GENERIC  
ENVIRONMENTAL IMPACT STATEMENT**

**TOWN OF YORKTOWN  
2009 COMPREHENSIVE PLAN**

# Creating Clean Energy Content

## Goals & Objectives:

- **Should reflect information gathered from existing conditions studies, public engagement**
- **Goals = longer term; more broadly focused**
- **Objectives = lay out intentions which support goals; more specifically focused**

### Sample Goals and Objectives for Clean Energy:

**Goal:** Support the transition towards clean energy sources.

- **Objective:** Allow and incentivize individuals and businesses to use renewable energy electric generation facilities and undertake energy efficiency initiatives.
- **Objective:** Support the expansion of clean energy opportunities through the Town's land use policies, plans, and regulations.
- **Objective:** Streamline the project review and approval processes so that it is efficient and predictable.

# Creating Clean Energy Content

## Goals & Objectives (cont.):

### Sample Goal and Objectives for Clean Energy:

**Goal:** Balance clean energy development and continued agricultural operations.

- **Objective:** Allow clean energy projects in priority agricultural areas only if mitigation for agricultural impacts have been identified and addressed.
- **Objective:** Encourage solar and other renewable energy production that is compatible with agricultural-related businesses.
- **Objective:** Prioritize balanced siting of clean energy projects on priority farmland identified for protection.

# Creating Clean Energy Content

## Goals & Objectives (cont.):

### **Additional goals to consider:**

- Achieving financial, socioeconomic, and other benefits associated with economic development (employment, tax revenue, etc.)
- Preventing, mitigating, and/or adapting to impacts of climate change (decreasing use of fossil fuels, diversified electric grid for resiliency, etc.)
- Aligning with NYS goals, policies, and programs on climate and clean energy (Climate Smart Communities, Clean Energy Communities, and other grant opportunities)

# Creating Clean Energy Content

## Strategies:

- **Offer specific policies/actions which support selected goals/objectives**
- **Should reflect resources, programs, and assistance available to municipalities**

**Example:** Incorporating strategies for corresponding goals/objectives

**Goal:** Support the transition towards clean energy sources.

- **Objective:** Allow and incentivize individuals and businesses to use renewable energy electric generation facilities and undertake energy efficiency initiatives.
  - **Strategies:** Offer the RPTL § 487 tax exemption for clean energy systems; pursue Community Choice Aggregation (CCA).
- **Objective:** Support the expansion of clean energy opportunities through the Town's land use policies, plans, and regulations.
  - **Strategies:** Amend local zoning to reflect balanced approach to clean energy; utilize and modify, as needed, NYSERDA model clean energy laws; adopt the NYStrech Energy Code.
- **Objective:** Streamline the project review and approval processes so that it is efficient and predictable.
  - **Strategies:** Utilize clean energy-specific permits and inspection processes; digitize permit applications and fee payments.

# Creating Clean Energy Content

## Strategies (cont.):

**Goal:** Balance clean energy development and continued agricultural operations.

- **Objective:** Allow clean energy projects in priority agricultural areas only if mitigation for agricultural impacts have been identified and addressed.
  - **Strategies:** Amend local zoning requirements to identify and require adherence to Town's preferred mitigation strategies (e.g. adherence to NYS Dept of Ag and Markets guidelines for solar on agricultural lands).
- **Objective:** Encourage solar and other renewable energy production that is compatible with agricultural-related businesses.
  - **Strategies:** Amend local zoning requirements to encourage the co-location of renewables and agricultural activities or land-uses.
- **Objective:** Prioritize balanced siting of clean energy projects on farmland identified for protection.
  - **Strategies:** Identify specific soil categories and/or physical areas for prioritization, while considering historic and current land uses; ensure alignment with local zoning and other land use policies; amend local zoning to guide clean energy development to alternative parcels or locations, away from priority soils.

# Creating Clean Energy Content

## Implementation Plans:

- **Should designate responsibilities, identify available resources, and clarify timelines for selected goals, objectives, and strategies.**
- **Can be used to evaluate feasibility of selected objectives and strategies.**
- **Serve as a roadmap to ensure Comp Plan components are completed and not forgotten.**

**Example: Implementation Plan for Clean Energy Goal**

<i>Goal</i>	<i>Objective</i>	<i>Strategy</i>	<i>Responsible Party</i>	<i>Resources</i>	<i>Time Period</i>
Goal 1: Support the transition towards clean energy sources.	Streamline the project review and approval process so that it is efficient and predictable.	Adopt Unified Solar Permit	Town Board; Building Inspector	Unified Solar Permit Toolkit  Technical assistance from NYSERDA CEC Program + Siting Team	___ months

# Creating Clean Energy Content

## Implementation Plans (cont.):

<i>Goal</i>	<i>Objective</i>	<i>Strategy</i>	<i>Responsible Party</i>	<i>Resources</i>	<i>Time Period</i>
Goal 2: Promote clean energy technologies in [Municipality's] services and facilities.	Maximize opportunities for municipal buildings and schools to use renewable energy resources, as feasible.	Adopt a benchmarking policy for municipal facilities.	Municipal legislature; Municipal administrative staff.	Technical and program assistance from NYSERDA Clean Energy Communities Program	__ months

<i>Goal</i>	<i>Objective</i>	<i>Strategy</i>	<i>Responsible Party</i>	<i>Resources</i>	<i>Time Period</i>
Goal 3: Support financial strategies that further clean energy development and decrease the cost of electricity.	Support residential and commercial clean energy projects through regulations and taxation policies	Ensure the RPTL § 487 tax exemption remains in place	Municipal legislature; Municipal assessor	NYSERDA Solar Guidebook for Local Governments NYS Department of Taxation and Finance resources	__ months

<i>Goal</i>	<i>Objective</i>	<i>Strategy</i>	<i>Responsible Party</i>	<i>Resources</i>	<i>Time Period</i>
Goal 4: Increase clean energy-related employment, business development, and training opportunities.	Encourage the development of education and training programs for clean energy employment opportunities.	Partner with local clean energy businesses to create paid internships and training opportunities.	Municipal staff; local businesses	Local / Regional Planning Agencies; NYSERDA Clean Energy Internship Program	__ months
