Zoning Board of Appeals

Zoning map and districts

- Regulates use, density, and placement of structures on a parcel
- Original intent: Prevent fire hazards and other threats to health and safety
- Each district generally has a list of bulk and area regulations, as of right, and special uses

Zoning requires a safety valve

Municipalities with zoning must have a **zoning board of appeals**

ZBA is a “buffer” for aggrieved applicants between decisions of the zoning enforcement officer and the State supreme court

Interpretations

Definitions are important.

Without them, board must come to consensus on what they think term or regulation means.

- May only be made upon appeal of Enforcement Officers decision
- Appellant believes Enforcement Officer wrongly applied the law
- Common areas of interpretation:
 - Definitions
 - Method of taking measurements
 - Ordinary meaning of terms, if term is undefined
 - Past decisions on same regulations or similar facts

Two types of variances

- **Use variance:**
to use land for a purpose not allowed in the zoning regulations
- **Area variance:**
for applications not in compliance with dimensional requirements of zoning regulations

Use variance test

To use land for a purpose not allowed in the zoning regulations. Applicant must prove all four factors:

1. No reasonable return
2. Unique circumstances
3. No self-created hardship
4. No alteration to the essential character of neighborhood

Area Variance

To use land in a way that varies from the dimensional requirements of zoning regulations

Area variance test

1. Change to neighborhood character
2. Alternatives not requiring a variance
3. Substantiality of the request
4. Effect on physical or environmental conditions
5. Self-created situation

 - Location by districts
 - Type of development

Site plan review

- Location/dimensions of buildings
- Utilities: sewage & storm drainage
- Proposed grades and contours
- Screening and landscaping
- Parking, access
- Lighting, signage

Remember:
Municipality can add elements of review

Special Use Permit

- Use IS allowed by zoning IF it meets conditions associated with that use in the zoning
- Use will not adversely effect neighborhood if conditions are met
- Designed to assure that use is in harmony with surroundings

General City Law §27-b
Town Law §274-b
Village Law § 7-725-b

- Local standards

North Shore Steak House Inc, v. Board of Appeals of the Village of Thomaston

Comprehensive Plan

Comprehensive plan purpose

- Statement of community vision : An expression of a municipality's goals and recommended action to achieve those goals.
- Provides strategies for achieving expressed goals, often in the form of new or revised land use regulations
- Serves as a framework and defense for land use regulations which focuses on immediate and long-term protection, enhancement, growth and development of the municipality.
- An outline for orderly growth, providing continued guidance for decision-making.

Comprehensive plan considerations

- Current land uses and regulations
- Growth patterns
- Infrastructure adequacy
- Economic development
- Housing
- Priorities for preservation

Preparation

- Governing board, planning board or special board, oversees preparation
- Public hearings must be held by both board preparing plan and governing board
- Governing board adopts plan and zoning amendments

Moratorium

Temporary suspension of development approvals, pending completion of more permanent regulations:

- May be enacted to gather information for and/or adopt a plan or new regulations
- Development that might occur without a moratorium could undermine the ultimate value of a plan in progress

Time periods:

- Fixed period of time, with a specified termination date
- No longer than reasonably necessary to adequately address the issues (generally not longer than 6 months)

Procedures: Planning Boards and Zoning Board of Appeals

State training requirements

Officer and
committee duties

Calling meetings,
agendas, public
input

Referrals

Minutes

Official

- Part 1: Applicant completes
- Part 2 & 3 : Reviewing board completes
- Actions are classified to determine level of review needed to consider environmental impacts:
 - **Type I:** Presumes significant adverse environmental impact; likely to require an environmental impact statement (EIS) (SEQR continues)
 - **Type II:** No environmental impact (SEQR concludes)
 - **Unlisted:** Full or short environmental assessment form required. SEQR ends if negative declaration; EIS if positive declaration of environmental impacts
