The hardcopy FIRM and the accompanying FISs are the official designation of SFHAs and Base
Flood Elevations (BFEs) for the NFIP. For the purposes of the NFIP, changes to the flood risk
information published by FEMA may only be performed by FEMA and through the mechanisms
established in the NFIP regulation (44 CFR Parts 59-78). These digital data are produced in
conjunction with the hardcopy FIRMs and generally match the hardcopy map exactly. However
the hardcopy flood maps and flood profiles are the authoritative documents for the NFIP.
